**Subject:** I am against the settlement

Renate Hesse  
Trial Attorney, Antitrust Division  
U.S. Department of Justice

I am disturbed that the Department of Justice is unwilling to enforce the antitrust laws. It seems that the DOJ simply does not understand the technical issues involved or the degree that Microsoft is damaging the US economy. I would be happy to spend time describing this to you. I teach operating system theory at University of California and San Jose State University. The settlement is wrong.
